The terms used in this Privacy Policy have the same meanings as in our Terms and Conditions, which is accessible at LocPoint.de: Simple Number for location worldwide unless otherwise defined in this Privacy Policy.

Information Collection and Use

The app generates small message blocks for sending locations. These data can be sent directly as an email from the app. With my app will use <https://www.googleapis.com/auth/gmail.send> for standard-compliant email written and sent.

For this the email account of the respective user is used. The content of the sent email can be checked by the recipient at any time. The data is not used for any other purpose. The use of this function must be approved once.

Required permissions

Location data (Ask for approval):

Tempo Master requires access to the location of your device. When asked, the current location and speed of movement are determined by GPS to show the speed and the local speed limit. Data about your location will not be saved by the app and will not be processed for any other purpose.

Access to protected storage:

In this memory area, the settings made on the setup screen and the positions of the slidable overlay displays are saved to a file.

Access to USB storage:

In this memory area, the database is stored with the Open-Street Map data.

Prevent standby mode:

Prevents self-deactivation of the display.

Full Internet access:

The ID of the app will be saved on my homepage at the first start together with the installation time. During an uninstall and subsequent reinstallation of the app, the app reads this data and sets the timer for the test time back to the correct value. This prevents a prolongation of the test time by reinstalling the app. This requires a one-time Internet connection. Otherwise, the app is completely offline usable.
